NATURAL TREASURES VIII

INTRODUCTION

We are pleased to present an exceptional collection of natural wonders from around the world.

We continue to be inspired by nature and the ability of these crystals and mineral formations to create intense emotions and reactions, such as those we experience when we admire any form of art.

All of these pieces have been selected for their aesthetic, rarity, condition and quality.

Our mission is to bring the beauty of these works from obscure mines around the world and into people's lives. We hope to awake your curiosity and immerse you in a world of natural treasures.

NO. 842

LARGE FINEST BLUE-PURPLE FLUORITE

Place of origin: La Viesca mine / Asturias, Spain

Height (Including Stand): 51cm

Dimensions: H 39.5cm x W 24cm x D 17cm

Presented is an exceptional specimen of blue-purple Fluorite, with a serene light blue hue that evokes the clear sky of a summer's day. Originating from the esteemed La Viesca mine in Asturias, Spain, this piece is graced with enchanting phantoms and iridescent rainbows that dance within its crystalline depths. The surface is playfully speckled with Pyrite, like stars scattered across the heavens, adding a unique character to each viewing angle.

This Fluorite's sheer size and the clarity of its colour are as remarkable as its provenance from a mine famous among collectors and now silent since 2020. A masterwork of nature's art, it is poised to become the crown jewel of any collection, offering not just a visual delight but a piece of mineral legacy. Embrace the opportunity to own a slice of geological majesty with this radiant Blue Fluorite.

NO. 843

STUNNING LARGE PYRITE

Place of origin: Peru

Height (Including Stand): 55cm

Dimensions: H 41.5cm x W 25cm x D 18.5cm

Impressive sculpture features a large cluster of Pyrite, masterfully extracted from the depths of Peru. Renowned for its metallic luster and golden hue, Pyrite—often called “Fool’s Gold”—creates a captivating visual symphony of cubes varying in size, each reflecting light in a dance of brilliance and geometry.

A standout specimen, this Pyrite cluster is a celebration of natural geometry and mineral beauty, with its well-formed cubes and mirror-like faces. It’s a remarkable addition to any collection, ideal for those who appreciate the intricate artistry of the Earth. This piece brings a touch of opulent splendour to any setting.

NO. 844

EXCEPTIONAL PYRITE WITH CALCITE

Place of origin: Peru

Height (Including Stand): 32cm

Dimensions: H 23cm x W 22cm x D 16cm

Stunning Pyrite piece from the mineral-rich soils of Peru, this piece is a symphony of metallic luster and geometric precision. Its perfect cubic crystals are interlocked in a captivating display, each reflecting the light with a mirror-like sheen. The Pyrite's golden coloration is complemented by delicate accents of Calcite, adding a layer of complexity and visual interest to the composition.

Esteemed for both its aesthetic and mineralogical significance, this piece is an exceptional find. Its well-defined cubes and exceptional luster make it a perfect decoration piece. This Pyrite is not only a piece of Peru's natural heritage but also a timeless emblem of nature's mathematical beauty.

NO. 846

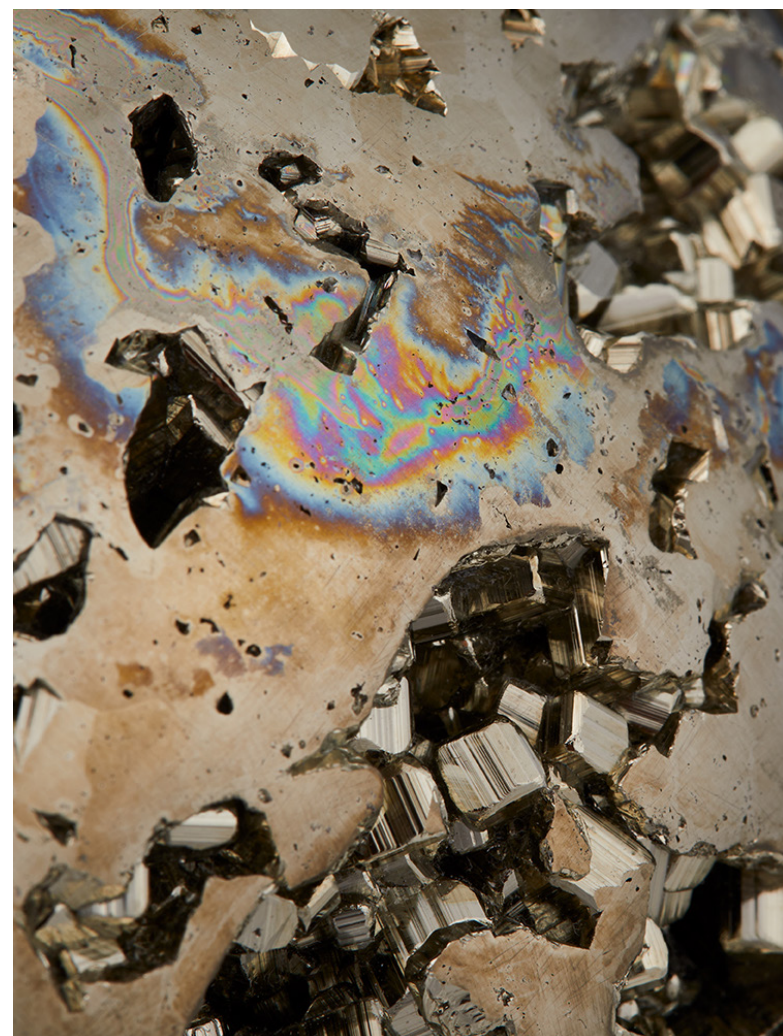

EXCEPTIONAL PYRITE SPHERE

Place of origin: Peru

Height (Including Stand): 18cm

Dimensions: Diameter 14cm

Captivating Pyrite sphere from Peru, a true natural masterpiece. This sphere is a polished marvel, with countless tiny Pyrite crystals embedded within, each sparkling with perfect luster. The way in which the crystals catch the light creates a galaxy of stars across the surface, making this piece a mesmerizing focal point in any room or collection.

NO. 847

STRIKING LARGE HERKIMER DIAMOND ON ITS NATIVE MATRIX

Place of origin: New York, USA

Height (Including Stand): 19cm

Dimensions: H 17cm x W 13cm x D 9cm

Magnificent large Herkimer diamond proudly seated on its original matrix. This clear, double-terminated quartz crystal is renowned for its exceptional clarity and brilliance, akin to that of fine diamonds. Each natural facet sparkles, reflecting light with unparalleled purity, making it a showpiece for any discerning collector.

Native to Herkimer County, New York, these stones are treasures of geological rarity. This specimen, with its impressive size and pristine condition, is a prime example of the Herkimer diamond's allure. It's an heirloom-quality piece that marries rugged natural beauty with a hint of refined elegance. Ideal for collectors seeking a centerpiece that speaks to the wonder of the natural world.

NO. 848

EXCEPTIONAL BLUE-PURPLE FLUORITE WITH PYRITE

Place of origin: La Viesca mine / Asturias, Spain

Height (Including Stand): 31cm

Dimensions: H 24cm x W 14cm x D 13cm

Exquisite specimen of blue-purple fluorite from the renowned La Viesca Mine in Asturias, which closed in 2020, making pieces like this increasingly rare. The specimen boasts vibrant hues and a composition of interlocking cubes typical of Fluorite's captivating crystal structure. Its vivid colours range from deep blue to a soft lavender, reminiscent of twilight skies.

This piece is not just a mineralogical curiosity but a closed chapter in the rich mining history of Asturias, Spain. This Fluorite is a must-have for connoisseurs and enthusiasts, perfect for elevating any collection with its enchanting colour and geometric perfection.

NO. 849

AMETHYST GEODE WITH LARGE CALCITE

Place of origin: Artigas, Uruguay

Height (Including Stand): 84cm

Dimensions: H 74cm x W 48cm x D 31cm

Magnificent Amethyst geode, a captivating treasure with a heart of intense purple and a unique large calcite, cradled in a custom rotating stand for a 360-degree view of its splendour. This piece is distinguished by a striking Calcite crystal, elegantly veiled in a fine drapery of lilac Amethyst. The calcite is further adorned with a delicate quartz blanket and black hematite accents, enhancing the depth and allure of the formation.

Exquisitely extracted with the aid of light and a camera's guiding eye, this geode has been meticulously cut to preserve its majestic presence. The process safeguarded its integrity, allowing the geode to retain the very portal through which the camera once peered, revealing the hidden wonders within.

This geode is a striking manifestation of the marvels that lie concealed within the depths of the Earth.

NO. 850

AMETHYST “HARP” WITH PHANTOM CALCITES

Place of origin: Artigas, Uruguay

Height (Including Stand): 63cm

Dimensions: H 56cm x W 45cm x D 25cm

This museum-quality Amethyst “harp” from Artigas, Uruguay, is a natural sculpture of exceptional beauty and rarity. The piece features a harmonious arrangement of high-quality Amethyst crystals, forming an open, loop-like structure reminiscent of a harp. Within this violet symphony, phantom Calcites emerge like notes of music, adding depth and complexity to the piece.

Each crystal is a testament to the wonder of nature’s art, with a deep purple hue that captures the essence of Amethyst’s soothing properties. The Calcite phantoms add a layer of intrigue, making it unique. As a collector’s item, this piece is not only visually striking but also embodies the geological richness of Uruguay’s mineral deposits. Invite wonder and elegance into your collection with this one-of-a-kind Amethyst harp.

NO. 440

STUNNING LABRADORITE SPHERE

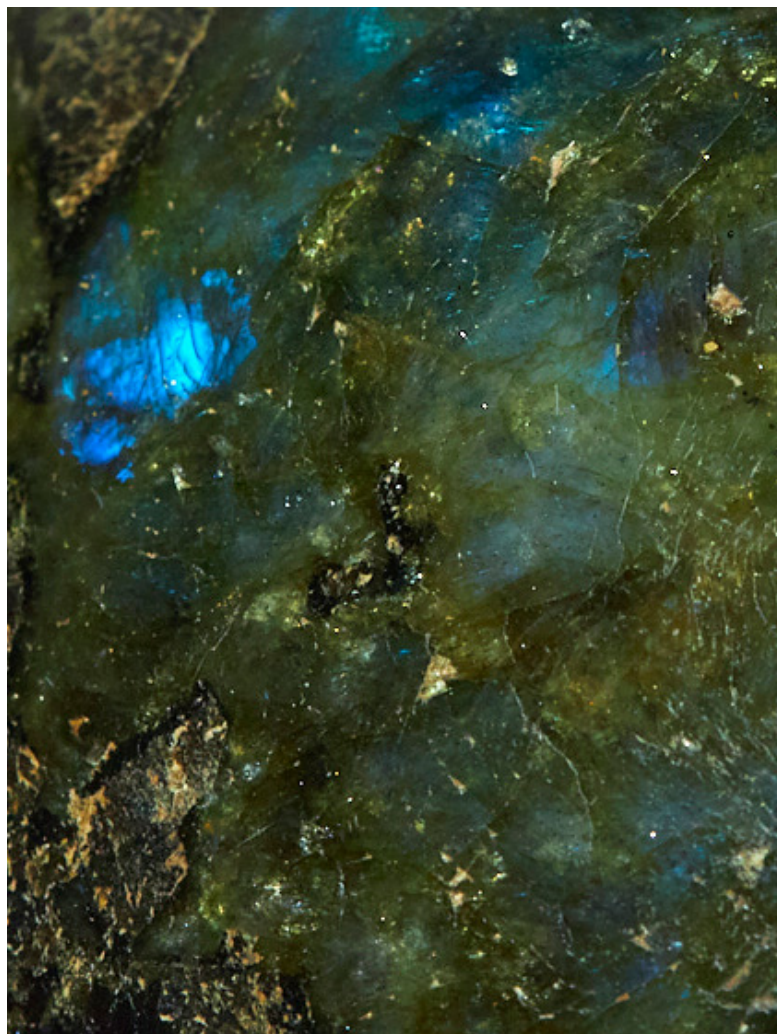

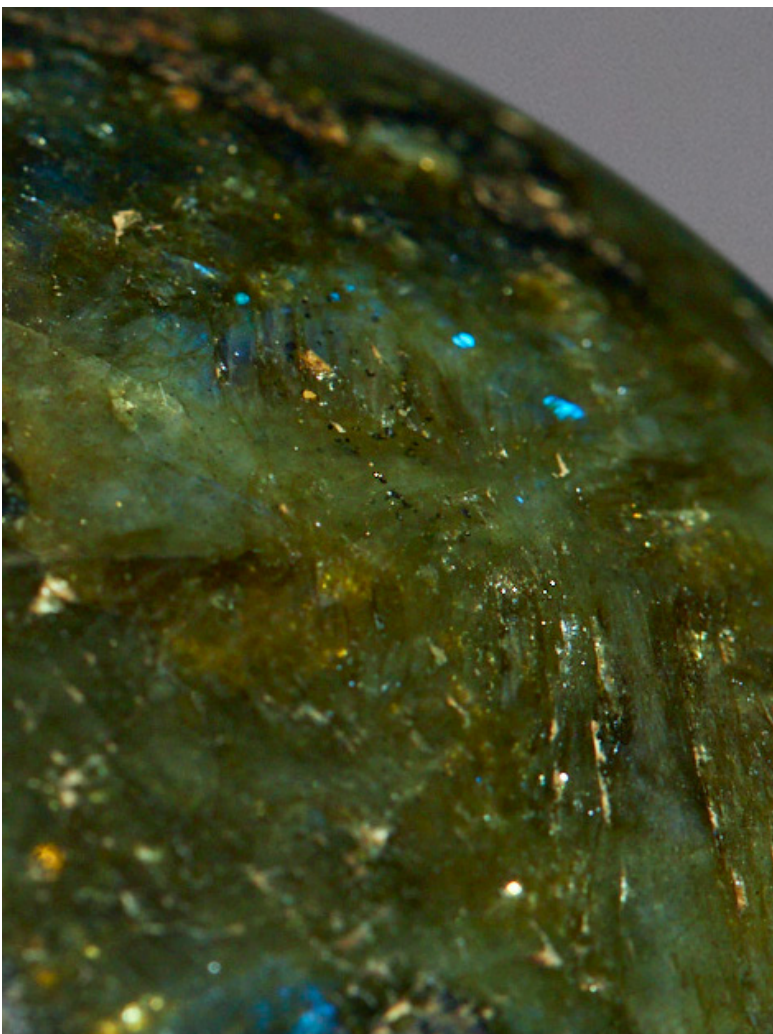

Place of origin: Madagascar

Height (Including Stand): 12.5cm

Dimensions: Diameter 10.5 cm

This stunning sphere is crafted from Labradorite from Madagascar, a mesmerizing mineral renowned for its remarkable play of colors, known as labradorescence. The sphere predominantly showcases a green hue, which is beautifully complemented by spectacular glimpses of blue that catch the light in a dazzling display.

The polished surface of the sphere enhances its natural iridescence, making it a truly captivating piece. The green and blue tones interplay harmoniously, creating a dynamic and visually appealing effect that changes as the light shifts.

NO. 852

STUNNING VANADINITE

Place of origin: Morocco

Height (Including Stand): 16cm

Dimensions: W 9.5cm x D 5.5cm x H 14cm

This exquisite specimen features a stunning Vanadinite crystal from Morocco. The Vanadinite showcases vibrant red-orange hues, characteristic of this mineral, and is of a substantial size, making it a striking piece for any collection.

Presented on a bespoke bronze base, this display piece is perfect for enhancing the aesthetic of any home or office. The custom base not only adds to the overall elegance but also ensures the Vanadinite is securely showcased, allowing its natural beauty to be admired from all angles.

NO. 856

CAPTIVATING VANADINITE

Place of origin: Morocco

Height (Including Stand): 14cm

Dimensions: W 6cm x D 4cm x H 12cm

This exquisite piece is a Vanadinite specimen from Morocco, renowned for its vibrant red-orange crystals. Vanadinite is a lead chlorovanadate mineral that forms stunning hexagonal crystals, often with a brilliant luster.

This particular specimen features an array of well-formed, deep red to orange-red crystals that stand out beautifully against the light-colored matrix. The crystals exhibit a striking, almost gem-like quality with their high reflectivity and intense color, making this piece a captivating display item.

NO. 857

BLUE AZURE LAPIS LAZULI

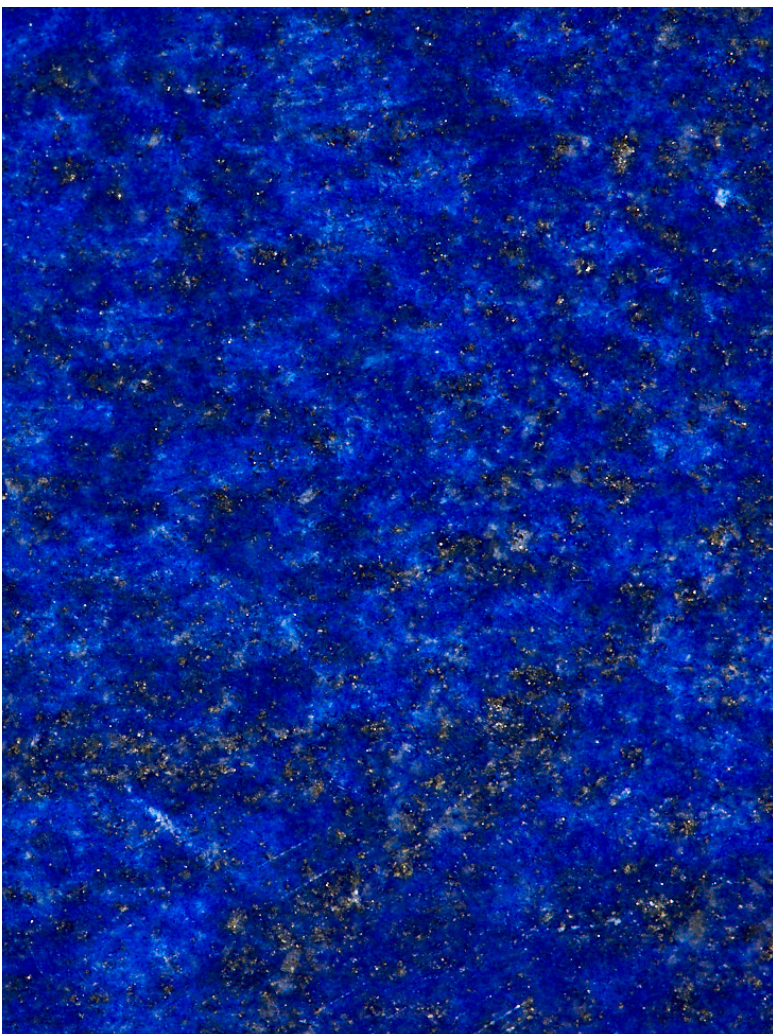

Place of origin: Afghanistan

Height (Including Stand): 20.5cm

Dimensions: W 15cm x D 7cm x H 19cm

This remarkable piece is a polished Lapis Lazuli slab, displaying an intense, deep blue color that is both rich and captivating. Originating from the mineral-rich regions of Afghanistan, this specimen is highly prized for its vivid hue and quality. The surface of the Lapis Lazuli is speckled with shimmering flecks of gold pyrite and streaks of white calcite, adding to its visual appeal and creating a striking contrast against the deep blue background.

Its polished finish enhances the natural beauty and luster of the stone, making it a truly eye-catching display piece that captures the timeless allure of this ancient gemstone.

NO. 858

STRIKING STIBNITE

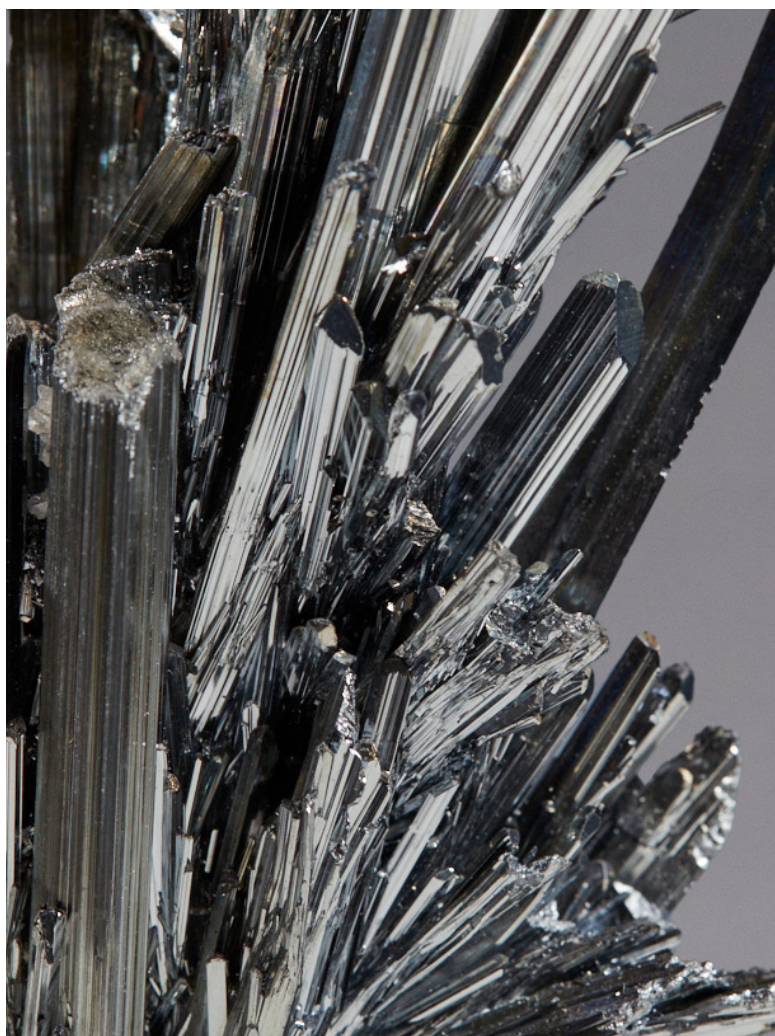

Place of origin: China

Height (Including Stand): 23cm

Dimensions: W 8cm x D 7cm x H 21.5cm

This striking piece is a Stibnite crystal cluster from China, renowned for its dramatic and metallic appearance. The specimen features an impressive array of elongated, sword-like crystals that radiate from a central point, creating a stunning visual effect. The crystals exhibit a brilliant metallic luster, characteristic of Stibnite, and their sleek, silver-grey coloration adds a touch of elegance and sophistication.

The Stibnite crystals are carefully mounted on a custom-designed base, enhancing their natural beauty and allowing the piece to be displayed prominently in any setting.

NO. 859

EXQUISITE STIBNITE CRYSTAL CLUSTER

Place of origin: China

Height (Including Stand): 21.5cm

Dimensions: W 9cm x D 5.5cm x H 19.5cm

This exquisite piece is a Stibnite crystal cluster from China, showcasing a dramatic arrangement of elongated, metallic crystals. The crystals radiate upward, creating a visually striking effect with their sleek, silver-grey luster.

Mounted on a custom-designed base, this Stibnite specimen makes a stunning display piece, perfect for enhancing the aesthetic of any home or office decor. Its unique formation and exceptional quality make it a captivating centerpiece that will surely draw admiration and interest.

NO. 861

STUNNING AZURITE AND MALACHITE

Place of origin: China

Height (Including Stand): 11cm

Dimensions: W 7cm x D 5cm x H 9cm

This striking specimen is a combination of Azurite and Malachite, sourced from China. The piece features a captivating interplay of deep blue Azurite crystals and vibrant green Malachite formations. The Azurite crystals, with their rich, dark blue hue and sparkling surface, create a stunning contrast against the smooth, botryoidal Malachite, which adds a vibrant green color and unique texture to the piece.

The overall structure presents a dynamic visual appeal, with the Azurite crystals nestled within the Malachite matrix, creating an eye-catching display. This Azurite-Malachite combination not only highlights the unique characteristics of each mineral but also celebrates the natural artistry of their formation, making it a truly remarkable and collectible piece.

NO. 862

EXQUISITE SMOKY QUARTZ

Place of origin: China

Height (Including Stand): 8cm

Dimensions: W 7cm x D 6cm x H 7cm

Discover the natural elegance of this stunning smoky quartz crystal from China. Its rich, smoky-brown crystals rise majestically from a contrasting white matrix, creating a captivating visual masterpiece. Accentuated by fiery red garnet inclusions, this piece stands out with its intricate beauty and unique charm.

Perfect for collectors and enthusiasts, this smoky quartz not only enhances your space aesthetically but also brings a soothing and grounding energy.

NO. 867

EXQUISITE POLISHED COPPER SPECIMEN

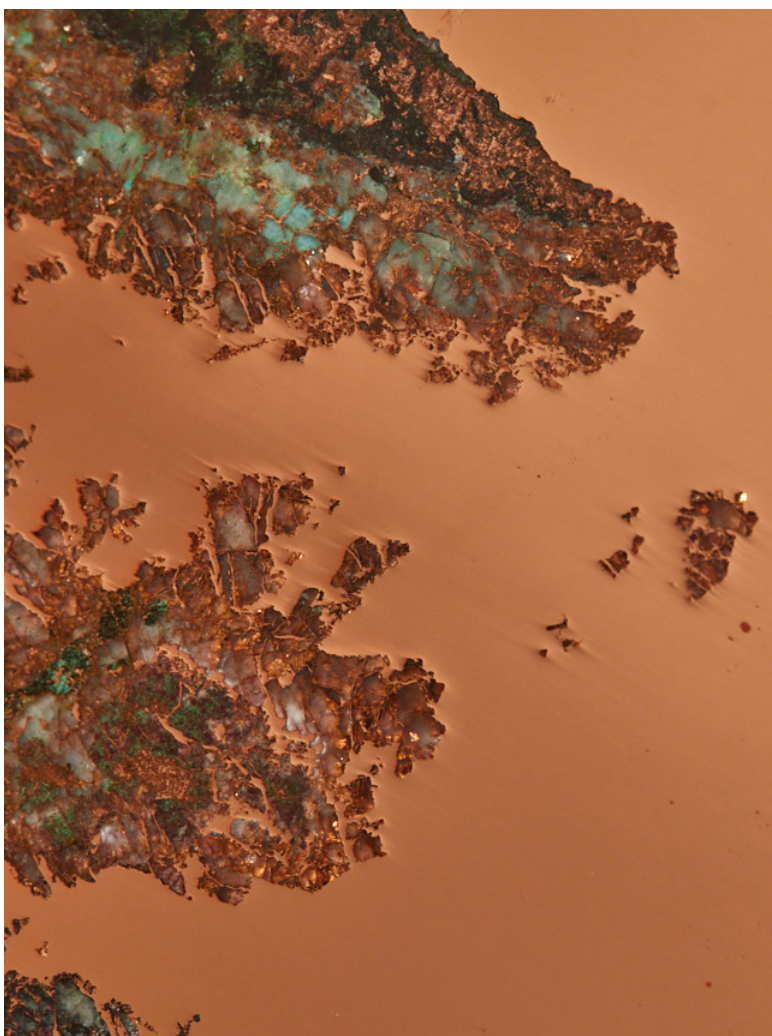

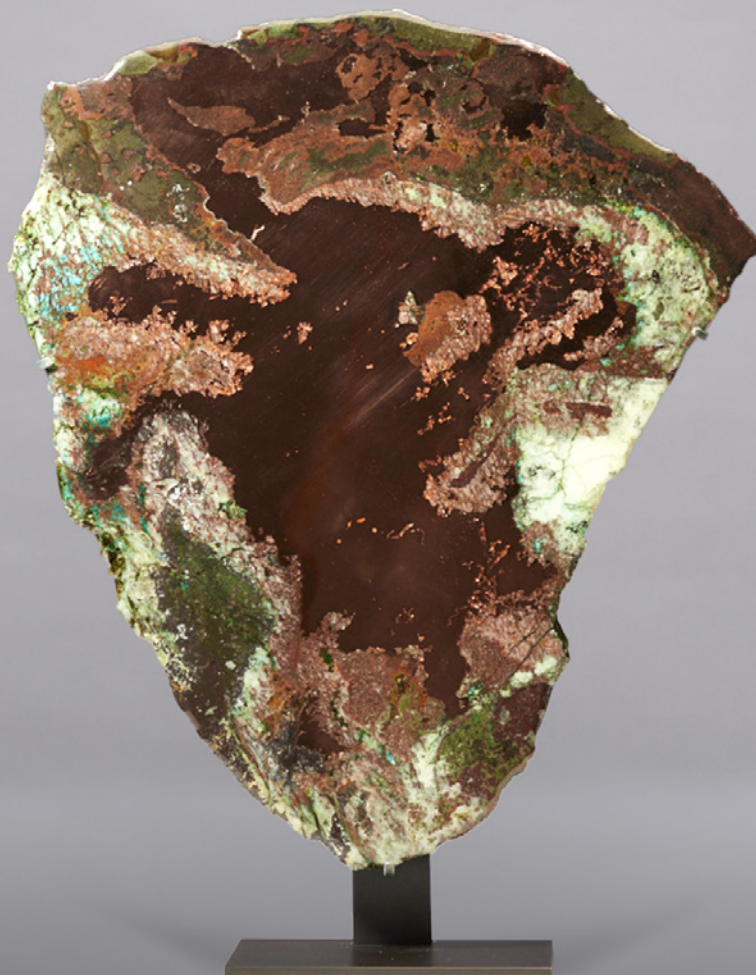

Place of origin: USA

Height (Including Stand): 29.5cm

Dimensions: W 23cm x D 7.5cm x H 26.5cm

Discover the natural beauty and elegance of this polished copper specimen, sourced directly from the rich mines of the United States. This stunning piece showcases a remarkable blend of earthy tones, with vibrant greens and deep browns intermingling seamlessly across its surface. The polished front highlights the intricate patterns and textures, creating a mesmerizing visual experience that is sure to captivate any observer. Its unique, irregular shape and striking color palette make it a true one-of-a-kind addition to any collection.

Perfect for collectors and enthusiasts alike, this copper specimen is not just a piece of mineralogy but a work of art. Mounted on a sleek, sturdy base, it stands proudly as a testament to the beauty and complexity of natural formations. Whether displayed in a home, office, or gallery, this piece will undoubtedly draw admiration and intrigue.

NO. 868

EXQUISITE QUARTZ SPHERE WITH GOLDEN RUTILE

Place of origin: Brazil
Height (Including Stand): 6cm
Dimensions: Diameter 5cm

Admire the captivating beauty of this stunning quartz sphere, intricately infused with golden rutile from Brazil. The sphere's polished surface magnificently highlights the delicate golden threads within, creating a dazzling display of natural elegance. This rare and enchanting piece is perfect for collectors and enthusiasts, adding a touch of luxury to any space.

NO. 869

CAPTIVATING QUARTZ SPHERE WITH GOLDEN RUTILE INCLUSIONS

Place of origin: Brazil

Height (Including Stand): 8.5cm

Dimensions: Diameter 7cm

Discover the mesmerizing beauty of this stunning quartz sphere, intricately infused with golden rutile from Brazil. The polished surface of the sphere magnificently highlights the delicate, shimmering golden threads within, creating a dazzling visual display.

NO. 870

RADIANT QUARTZ SPHERE WITH GOLDEN RUTILE

Place of origin: Brazil

Height (Including Stand): 6cm

Dimensions: Diameter 5cm

Experience the captivating charm of this radiant quartz sphere, featuring exquisite golden rutile inclusions from Brazil. The sphere's flawlessly polished surface reveals the intricate golden threads within, creating a dazzling visual spectacle that is both unique and enchanting.

NO. 871

MESMERIZING QUARTZ SPHERE WITH GOLDEN RUTILE INCLUSIONS

Place of origin: Brazil

Height (Including Stand): 5.5cm

Dimensions: Diameter 5cm

Explore the extraordinary allure of this mesmerizing quartz sphere, featuring stunning golden rutile inclusions from Brazil. The perfectly polished surface accentuates the intricate golden threads within, creating a striking visual masterpiece that captures the essence of natural beauty.

NO. 872

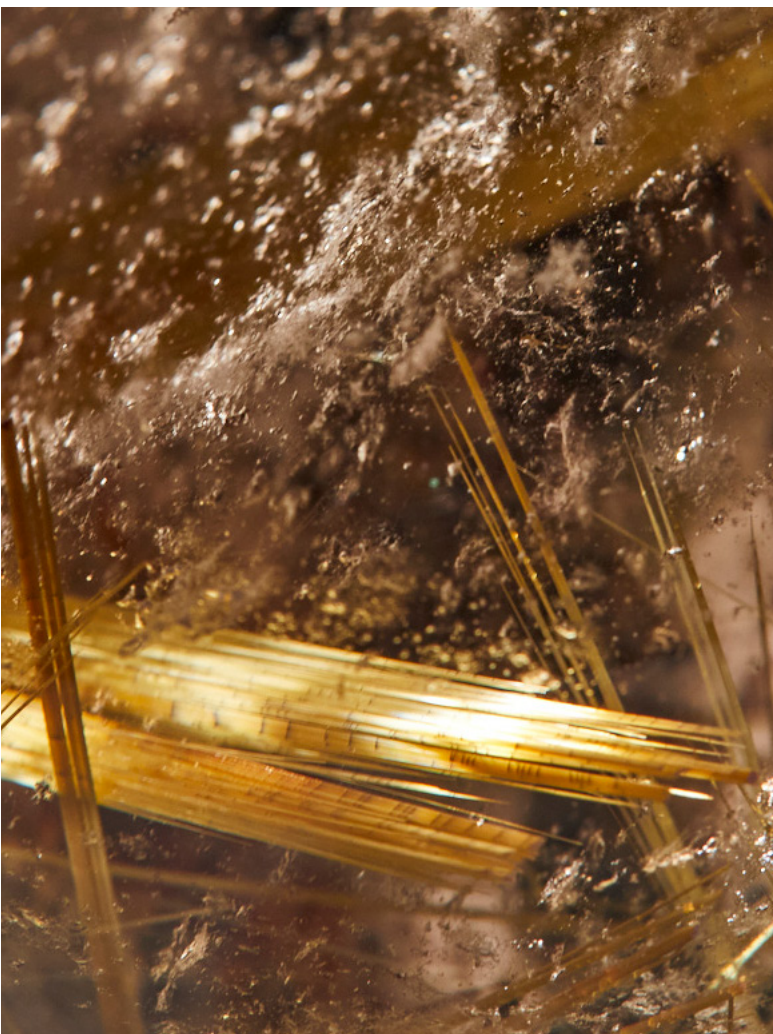

GLEAMING QUARTZ SPHERE WITH GOLDEN RUTILE

Place of origin: Brazil

Height (Including Stand): 5cm

Dimensions: Diameter 4cm

Immerse yourself in the splendour of this gleaming quartz sphere, featuring exquisite golden rutile inclusions from Brazil. The sphere's flawlessly polished surface enhances the intricate golden threads inside, creating a stunning visual effect that is both unique and captivating.

NO. 874

VIBRANT SULFUR CRYSTAL SPECIMEN

Place of origin: Sicily, Italy

Height (Including Stand): 16.5cm

Dimensions: W 10cm x D 10cm x H 15cm

Introducing a vibrant sulfur crystal specimen from Sicily, Italy, showcasing a brilliant yellow hue that is both striking and rare. This extraordinary piece is a perfect example of natural mineral formation, with its sharp, well-defined crystals radiating an intense yellow - golden color.

NO. 877

EXQUISITE FLUORITE WITH GALENA: A COLLECTOR'S GEM

Place of origin: Tennessee, USA

Height (Including Stand): 10cm

Dimensions: W 10cm x D 4.5cm x H 8cm

This stunning piece of Fluorite with Galena, hailing from Tennessee, USA, is a magnificent addition to any collection. Its rich purple hues, accented by the metallic sheen of Galena, create a striking contrast that is sure to captivate the eye.

This extraordinary Fluorite and Galena specimen will undoubtedly enhance your collection, bringing with it a sense of wonder and admiration for the natural world.

NO. 882

MESMERIZING AGATE WITH WHITE QUARTZ

Place of origin: Brazil

Height (Including Stand): 42.5cm

Dimensions: W 36cm x D 10cm x H 37.5cm

This captivating slice of Agate with White Quartz from Brazil is a truly stunning natural wonder. The agate features a beautiful mix of colors, with swirling bands of deep blue, warm brown, and soft gray, accentuated by the pristine white quartz that runs through the center. The translucent quality of the quartz allows light to pass through, enhancing its beauty.

NO. 975

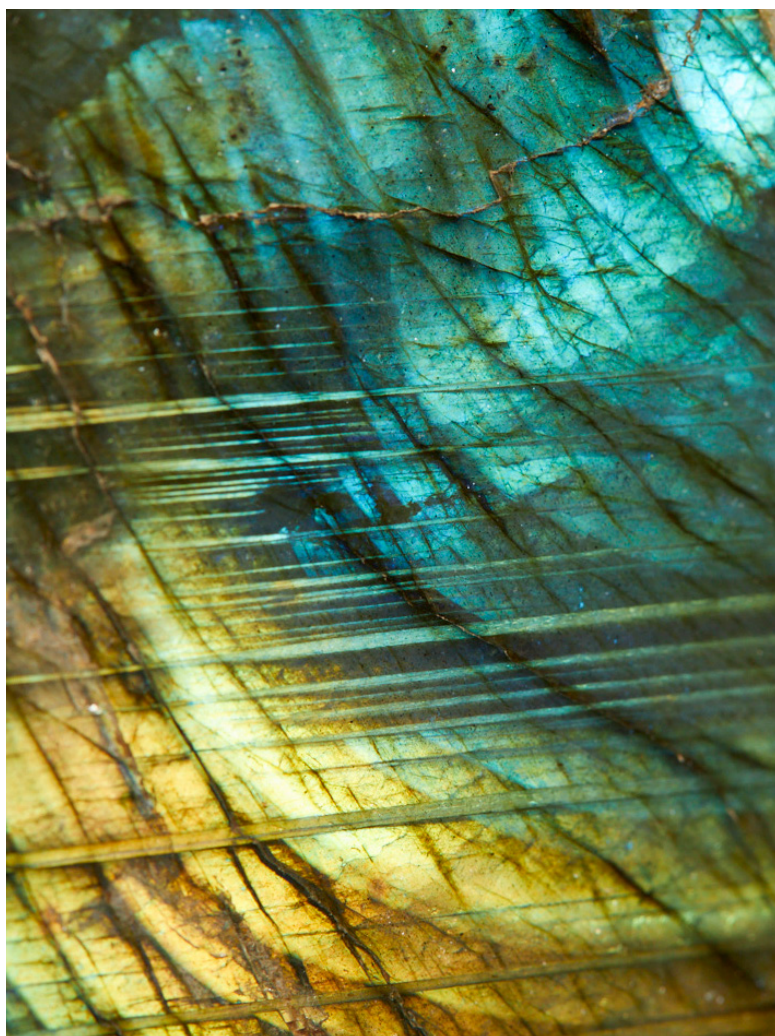

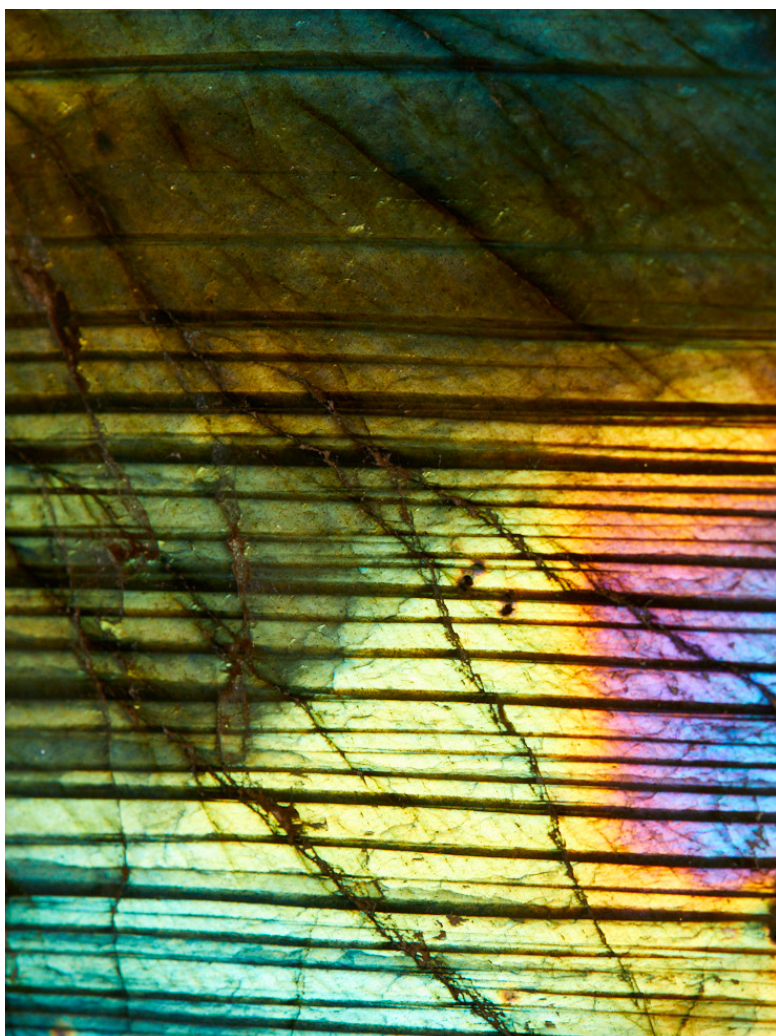

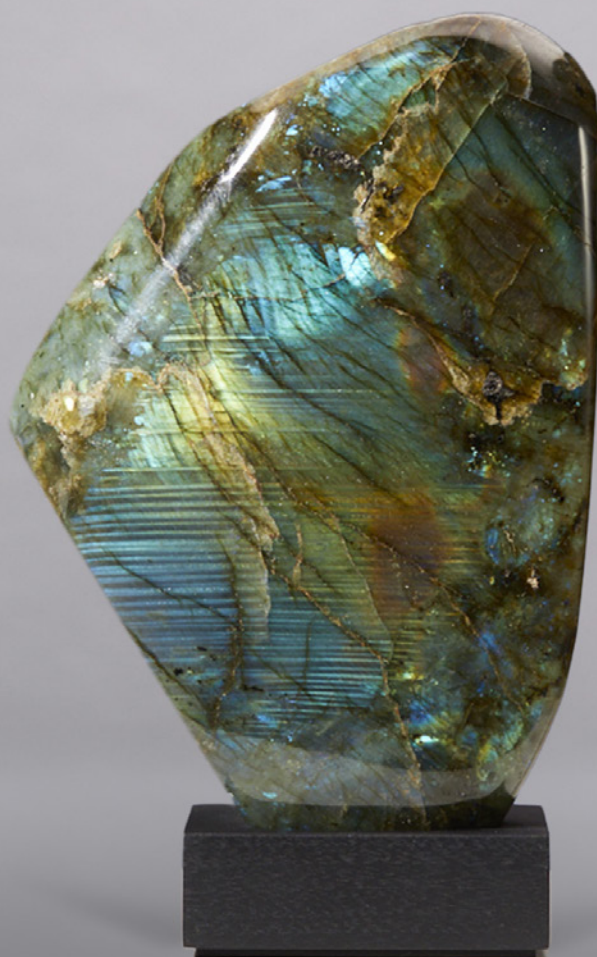

ENCHANTING LABRADORITE: A SYMPHONY OF COLORS

Place of origin: Madagascar, Africa

Height (Including Stand): 21cm

Dimensions: W 13.5cm x D 7cm x H 19cm

This magnificent piece of Labradorite from Madagascar is a true testament to nature's artistry. Known for its mesmerizing play of colors, this specimen showcases a stunning array of iridescent hues. As light dances across its surface, you will see flashes of brilliant blue, vibrant green, and hints of gold, all perfectly encapsulated within the stone's natural matrix. The polished finish enhances its inherent beauty, making it a captivating display piece.

NO. 976

DAZZLING TRIANGULAR PYRITE

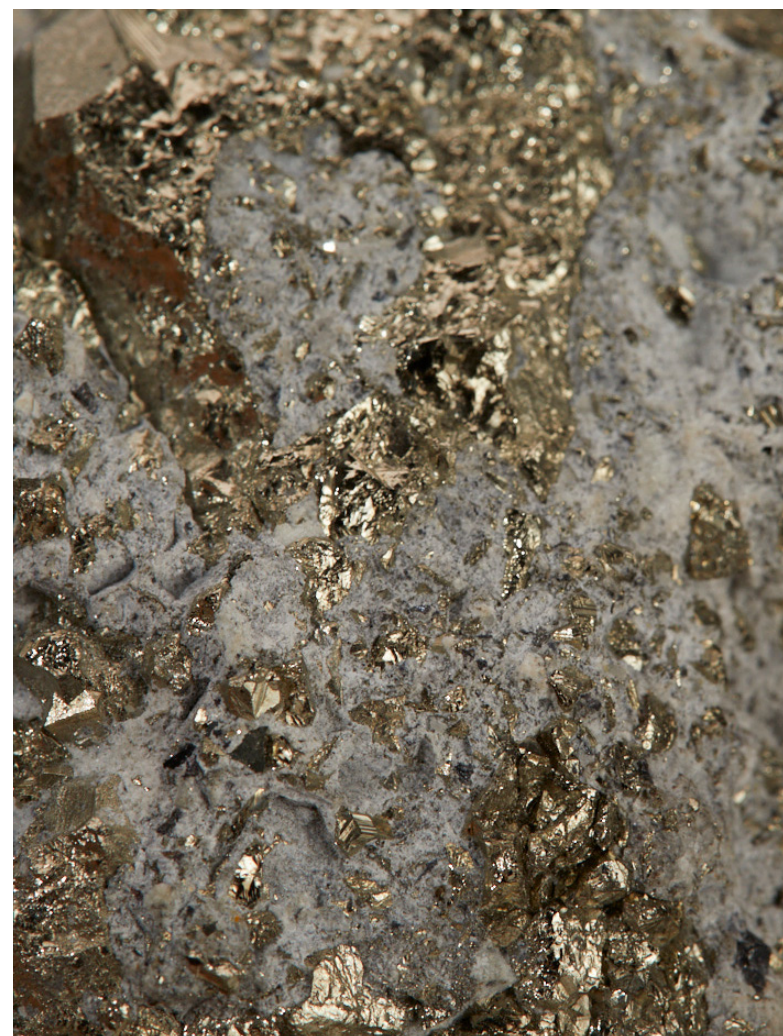

Place of origin: Peru

Height (Including Stand): 13.5cm

Dimensions: W 9cm x D 7cm x H 11.5cm

This stunning piece of Pyrite from Peru, often referred to as "Fool's Gold," is a remarkable example of nature's craftsmanship. The specimen features a unique triangular shape that enhances its geometric beauty, showcasing a brilliant metallic luster with intricate formations that catch and reflect light in a dazzling display of golden hues. Its angular, triangular structure gives it a distinct, mesmerizing appearance that is sure to captivate any observer.

This Pyrite's radiant glow, unique triangular shape, and inherent charm inspire and elevate any space.

NO. 977

EXQUISITE PETRIFIED WOOD FROM AFRICA

Place of origin: Madagascar, Africa

Height (Including Stand): 29cm

Dimensions: W 22cm x D 7.5cm x H 26cm

This remarkable piece of petrified wood from Africa is a stunning testament to nature's ability to transform organic material into enduring stone. The intricate patterns and rich earthy tones of this specimen capture the essence of ancient trees, preserved through millennia.

The beautiful mix of beige, brown, and subtle amber hues highlights the detailed growth rings and organic textures, making it a captivating and unique display piece.
